Amy,

Many thanks again for meeting with us earlier this week. Brad and I truly enjoyed visiting with you, and we deeply appreciate your time and willingness to review our paper.

I've attached the link to our website www.israelbonds.com which will give you a better understanding of our firm and products. I've also attached a short power point above which illustrates the resilience of Israel's economy which I think you will find very helpful.

Brad and I would be more than happy to come back to Little Rock for a presentation to your board or staff, or we can arrange a Zoom call if that works better for you and your team. We would welcome the opportunity to present to your board and to answer any of their questions.

The State Treasurer made another significant investment(\$20M) in our bonds after our meeting with his team this week, and we certainly hope that we can bring APERS on board as well.

Please let us know how we can assist you as you and your team complete your due diligence.

Thanks again for making time for us this week Amy. We really enjoyed meeting you and look forward to visiting with you again soon.

With Best Regards,

Larry
